To whom it may concern

RE: Speedway Construction.

Speedway Construction carried out price work and supplied construction personnel to Mace at the T2 Dublin Airport Project. They have previously worked on a diversity of contracts which demonstrates the depth of their experience and expertise. They are always willing to offer advice to clients and other construction professionals on a wide range of project issues. They have an experienced team supported by highly skilled site management and operatives.

Speedway takes pride in delivering a service with a high level of safety, professionalism and respect for the customer. Speedway at T2 has proven to be one of the hidden gems. They have been in control of their own destiny throughout and helped drive the programme to deliver a project of high quality and finish.

At Mace we pride ourselves in building relationship with the supply chain. With Speedway we wish them continued success as a result of their commitment to their core values; customer care, flexibility to the needs of their clients and a clear understanding of the need to deliver quality projects on time, and within budget.

I can confirm that we would be happy to recommend them for future projects and look forward to working with this well honed team again.

Yours sincerely,

Willie Shaw
Construction Operations Director
