To whom it may concern:

**Re: Reference: Speedway Construction Ltd:**

We confirm that Michael McNamara & Company appointed Speedway Construction Ltd., on a number of complex projects for Michael McNamara & Company over the past decade. Speedway Construction provided us with an unrivalled database of skilled construction labour enabling us to staff our projects with experience labour such as Crane Drivers, Carpenters, Banksmen, Forklift drivers, Hoist Operators, Labourer and Traffic Coordinators.

- Terminal 1 Extension (Dublin Airport) - Construction on a live airside site with a complex construction programme.
- Beaumont Hospital, Dublin
- Elm Park Major Mixed Use Sustainable Development, Dublin 4 (€400m) (Multi Award Winning)
- Barrow Street Development, Dublin
- Gaiety Theatre / South Kings street Retail Development
- Trinity College Dublin CRANN Building & Sports Centre, Parse Street, Dublin 1
- Trinity College Dublin Long Room Hub project
- Royal College of Surgeons of Ireland, Beaux Lane, Dublin
- York Street Sustainable Housing Development, Dublin
- The Point Village Major Mixed Use Development (€250m)
- Hermitage Private Clinic, Lucan, Dublin (€63m)
- Houses of the Oireachtas Redevelopment, Dail Eireann (Irish Government Buildings)
- Millennium Wing, National Gallery of Ireland, Dublin (Multi Award Winning)
- Bishop Square Local Authority Offices, Dublin 2
- James Connolly Memorial Hospital, Dublin 2
- Shelbourne Hotel Redevelopment, Dublin 2 (€110m)

The above mentioned projects included some of the largest and most complex projects undertaken in recent times. The Elm Park Major Mixed Use Development for instance was a €400m, multi-award winning project in Dublin City with an onerous programme which was constructed in several phases.

Speedway Construction were invaluable to McNamara Construction on the above mentioned projects because of their commitment to supplying a skilled labour force and the partner approach taken at director level. The management team at Speedway Construction engaged directly with us at every phase of each of the projects on a day to day basis and readily strove to arrive at solutions to budget and programme constraints.

A culture of operating safely is a clear visible key focus of the company from Directors through on-site management and on into the workforce. This is reinforced by training and operational work practices complying with the safety related procedures of main contractors and statutory requirements. With years of experience in construction, workforce management and labour supply, Speedway Construction was skilled at matching tradesmen to the needs of McNamara Construction.

I would have no hesitate in recommending Speedway Construction Limited and would be happy to provide further information on request.

Yours faithfully,

**Luke Gibbons,  
Chief Operations Officer  
Michael McNamara & Company**
